- Gurugram, India

PROFILE

11 years of experience, 10+ as a Senior Data Engineer, across PySpark, Python, Big Data, Azure, AWS, Databricks, ETL, DevOps, automation and Generative AI.

CORE SKILLS

PySpark · Python · SQL · Delta Lake · Hive · Hadoop · Azure / ADF · Databricks · ADLS Gen2 · Synapse · AWS S3 · Glue · Athena · Airflow · CI/CD · Jenkins · GitHub · LLMs · Generative AI · PepGPT

CERTIFICATIONS

- AWS Certified Solutions Architect
- Python & SQL Expert — Persistent
- Databricks Data Engineer Fundamentals
- Microsoft Azure AI Fundamentals
- Generative AI on Azure
- Databricks Internal — Lakehouse & Delta Lake
- Azure Internal — ADF & ADLS Gen2

EDUCATION

B.Tech, Electronics & Communication Engineering
Full Time · 2014

SUMMARY

Senior Data Engineer at PepsiCo with 11 years of experience spanning cloud migration, data transformation, ETL frameworks, Agile delivery and stakeholder communication. Focused on enterprise workflow automation, data governance & lineage, dashboard/analytics products, AI-powered operational tools and the Databricks ecosystem — building products that reduce manual effort and improve visibility at scale.

PROFESSIONAL EXPERIENCE

Sr. Data Engineer · PepsiCo
Jan 2024 – Present

Gurugram, India

- Enterprise data engineering, ETL frameworks and cloud data platforms using Azure & Databricks.
- Built AI-enabled automation including LLM-based source-to-target mapping and auto-ingestion.

Senior Data Engineer · Persistent System Ltd
Aug 2021 – Dec 2023

Thermo Fisher Engagement

- Delivered Databricks, PySpark, Delta Lake pipelines with Airflow orchestration and CI/CD.
- Built near real-time source-DB to data lake ETL (Galileo) and enterprise analytics (LPD Atscale).

Senior Software Engineer · Cavission System Ltd
Dec 2019 – Aug 2021

Data Governance & Analytics

- Delivered DataLab — a standardized analytical environment for governance and analytics.

IT Analyst · TCS
Mar 2015 – Dec 2019

BFSI Engagements

- Delivered enterprise data warehousing solutions for BFSI clients.

KEY PROJECTS

Sustainability
Bronze/silver/gold ETL pipeline framework.
ADF · Databricks · Delta Lake

Employee Domain
Classified data ETL across layered tables.
ADF · ADLS2 · OData

EDF Framework
LLM-based auto mapping & ingestion.
LLM · PepGPT

Galileo
Near real-time DB-to-lake ETL framework.
ETL · Real-time

LPD Atscale
Consolidated enterprise analytics models.
Analytics

DataLab
Standardized governance & analytics env.
Governance

ACHIEVEMENTS

- **Training:** Trained 100+ engineers on Python and data engineering best practices.
- **AI Tutorial Series:** Created tutorials covering LLMs and 20+ AI tools.
- **Recognition:** Multiple Team Spot Awards and Applause Awards.
- **Professional Excellence:** Certified in Accounting Fundamentals, Card Transaction Life Cycle and Loyalty Management.
